

School / College Name: Sunrise Public School

Board / University: CBSE

Academic Year: 2025-26

Class / Grade: 7

Stream: General

Subject Name: Science

Exam Type: Unit Test

Paper Title: Science Unit Test - Photosynthesis and Respiration

Time Duration: 3 Hours

Maximum Marks: 10

Passing Marks: 4

Medium: English

Chapter Names: Chapter 1 - Nutrition in Plants; Chapter 2 - Nutrition in Animals

Topics Covered: Photosynthesis, chlorophyll, stomata, respiration, breathing, aerobic respiration, anaerobic respiration

Difficulty Level: medium

Question Types: MCQ, Short Answer

Internal Choices: No

Learning Outcomes: Students should explain photosynthesis, compare respiration and breathing, and identify basic plant processes

Exam Date: 2026-05-26

Prepared By: Science Department

Reviewed By: Principal

Additional Notes:

- Use only the topics given in this template.
- Keep language simple and class-appropriate.
- Do not include questions from unrelated chapters.

Reference Content:

Photosynthesis is the process by which green plants make their own food using sunlight, water, carbon dioxide, and chlorophyll.

Stomata are tiny openings on leaves that help in gas exchange.

Respiration is the process of releasing energy from food in living organisms.

Breathing is the physical process of inhaling oxygen and exhaling carbon dioxide.

Aerobic respiration uses oxygen, while anaerobic respiration happens without oxygen.
